

Weartec Plus a life saver for Harsh Environments

Standard Corrosion Protection

Ideal for
Food & Packaging
Industries in
Wash Down Areas.

Need protection
against corrosion,
erosion and the
ravages of time?

Then look to
ACE Controls for
Weartec Plus
protection...
standard on the
majority of ACE's
industrial shock absorber
and feed controller
threaded outer tubes.

Aggressive independent laboratory salt-spray testing confirms that Weartec Plus offers superior corrosion protection compared to: Armoloy, nickel plate, hard chrome, black oxide and platinum. It's the ideal corrosion fighter in wash down areas for the food and packaging industries as well as outdoor environments.

Weartec Plus, available now
on UNF and metric threaded
models at no additional cost.
