Dual Locking Valve for Numatics 2012 Series Valve

This valve converts the Numatics 2012 series valve into a bubble-tight valve to lock and hold position. The manual release exhausts trapped air before servicing equipment.

- Direct Mount to 2012 Base
- Independent Manual Release (ports 2 & 4)
- Locks Both Ports Bubble-Tight
- Compact Design
- No Extra Plumbing
- Quick Assembly (5 min)

1/8, 1/4, & 3/8 NPTF and 1/4 Tube Solenoid Air Pilot P.O. Check Valves

Lock and hold your pneumatic device in position. The solenoid opens the air passage to the pilot, to open the valve.

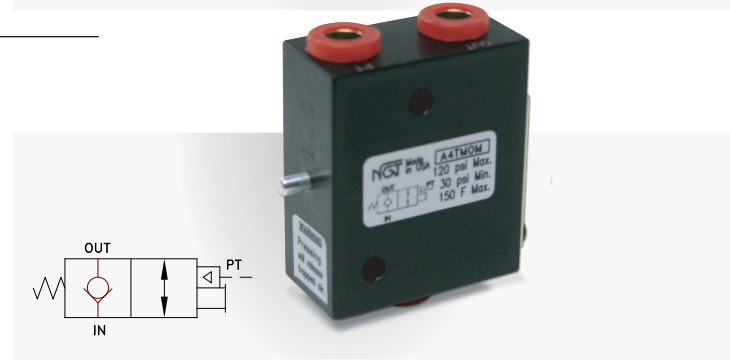

- No Connectors Required (1/4 Tube)
- Solenoid Operated Pilot (3/2 NC)
- Bubble-Tight Locking
- Compact Design

Push-in 1/4 Tube P.O. Check Valve

Lock and hold your pneumatic device in position. The manual release exhausts trapped air before servicing equipment.

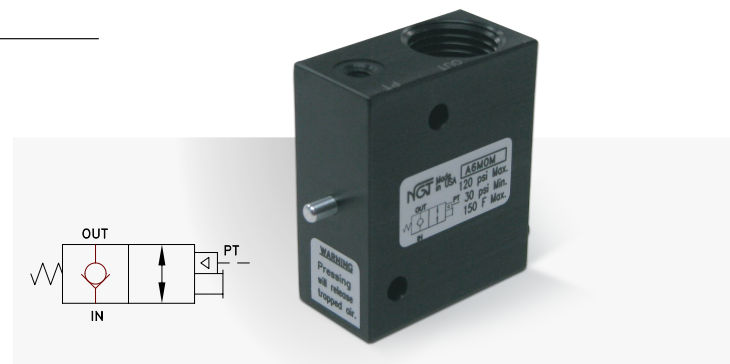

- No Connectors Required
- Manual Release to Exhaust Trapped Air
- Bubble-Tight Locking
- Compact Design

1/8, 1/4 & 3/8 NPTF P.O. Check Valves

Lock and hold your pneumatic device in position. The manual release exhausts trapped air before servicing equipment.

- Bubble-Tight Locking
- Manual Release to Exhaust Trapped Air
- Compact Design
