### Introduction

The FPM-800S series are rugged industrial monitors that support a wide operating temperature range (-20 ~ 60 °C/-4 ~ 140 °F), making them suitable for diverse applications. The true-flat front panel is IP66 rated for protection from water and dust to ensure easy cleaning. With the provision of a 304 stainless steel front bezel, FPM-800S is especially suitable for operation in hazardous and strict hygiene environments.
